U.S. INTERNATIONAL TRADE IN GOODS AND SERVICES February 2015

The U.S. Census Bureau and the U.S. Bureau of Economic Analysis, through the Department of Commerce, announced today that the goods and services deficit was **\$35.4 billion** in February, down \$7.2 billion from \$42.7 billion in January, revised. New Report on U.S. International Trade in Goods

On July 30, 2015, at 8:30 a.m., the U.S. Census Bureau will introduce a new release, “Advance Report: U.S. International Trade in Goods.” This report will:

- Be released monthly, 4-7 business days in advance of the “U.S. International Trade in Goods and Services” report (FT-900).
- Present advance statistics for the reference month. For example, the July 30 release will feature advance statistics for June 2015.
- Contain statistics for international trade in goods on a Census basis by principal end-use category.

- Not include statistics for trade in goods on a balance of payments basis or statistics for trade in services, both of which will continue to be featured in the FT-900.
- Be available at www.census.gov/trade.

In accordance with Section 7 of the Office of Management and Budget’s (OMB) Statistical Policy Directive No. 3, OMB granted the Census Bureau an exception to the previously approved schedule for the release of the FT-900. OMB granted the exception for the sole purpose of publicly releasing advance monthly statistics on trade in goods.

The new report will present two sets of statistics: “Advance” statistics, which reflect partial coverage, and “Final” statistics, which reflect complete coverage and correspond to the most recently published statistics in Exhibits 6 and 13 of the FT-900. Sample exhibits of the new report are available at: www.census.gov/foreign-trade/statistics/notices/20150405_advrelease.html.

Upcoming Revisions to Goods and Services

On June 3, 2015, the U.S. Census Bureau and the U.S. Bureau of Economic Analysis (BEA) will release “U.S. International Trade in Goods and Services: April 2015” and “U.S. International Trade in Goods and Services: Annual Revision for 2014.” With these releases, statistics on trade in goods, on both a Census basis and a balance of payments (BOP) basis, will be revised beginning with 2012, and statistics on trade in services will be revised beginning with 1999. The revised statistics for goods on a BOP basis and for services will also be included in the report “U.S. International Transactions: First Quarter 2015 and Annual Revisions” and in the annual revision of the [U.S. International Transactions Accounts](#) (ITAs), both to be released by BEA on June 18, 2015.

Goods

Revised statistics on trade in goods will reflect 1) corrections and adjustments to previously published not-seasonally-adjusted statistics for goods on a Census basis, 2) recalculated seasonal and trading-day adjustments, and 3) newly available and revised source data on BOP adjustments, which are adjustments that BEA applies to goods on a Census basis to convert them to a BOP basis. BOP adjustments are presented as *net adjustments* in this release.

Services

Revised statistics on trade in services beginning with 1999 will reflect the reclassification of repairs related to Foreign Military Sales from exports of *government goods and services n.i.e.* (not included elsewhere) to exports of *maintenance and repair services n.i.e.* This reclassification will result in more accurate international account statistics and will bring BEA’s statistics into closer alignment with international guidelines, which recommend that services supplied by and to governments be classified to a specific services category where possible.

Revised statistics on trade in services beginning with 2012 will also reflect 1) newly available and revised source data primarily from BEA’s surveys of international services transactions, 2) revised seasonal adjustments, and 3) revised interpolations of quarterly source data to monthly statistics (see the information section on page A-4 of this release).

Additional information on BEA’s 2015 annual revision of the ITAs will be presented in the April 2015 issue of the [Survey of Current Business](#), which BEA will release in mid-April. If you have questions, please contact BEA’s Balance of Payments Division at InternationalAccounts@bea.gov.
