      - Employer's cost for legally required programs and programs not required by law: - Continued

   2. **Pension plans:**
      a. **Defined benefit pension plans**
         - Costs for both qualified and unqualified defined pension plans. Pension plans that specify the benefit to be paid to employees upon retirement, generally either a specific amount or a percentage of compensation. Employer contributions are based on actuarial computations that include the employee’s compensation and years of service and are not allocated to specific accounts maintained for employees.
      b. **Defined contribution plans**
         - Costs under defined contribution plans. Pension plans that define the employer contributions to a separate account provided for each employee. The employee “benefit” at retirement depends on the amount contributed and the results of the account’s activity. Examples include profit sharing plans, money purchase (e.g., 401k, 403b) and stock bonus plans (e.g., ESOPs).

   3. **Payroll taxes, employer paid insurance premiums (except health), and other employer benefits** - Include legally-required fringe benefits (e.g., Social Security, workers’ compensation insurance, unemployment tax, state disability insurance programs, Medicare).
